Title of the Practice: Arun Sen Memorial Annual Prize Distribution Ceremony

Suri Vidyasagar College holds the Annual Arun Sen Memorial Prize Distribution Ceremony in order to felicitate the meritorious students and toppers of University examinations and also other co-curricular and extra-curricular activities such as NCC, NSS and sports. Medals, certificates and prizes are awarded to those of exceptional merit or talent through a diverse array of memorial prizes contributed over the years by various teachers and other individuals with a wish to encourage educational achievement and character building.

Objectives of the Practice - This program is held to encourage students to strive for excellence in their respective academic fields as well as in other activities benefiting character development and nation building. All aspects of student life ranging from Academics to Sports and even regularity of attendance are awarded through this program. It is noteworthy to mention that the name commemorates former Principal Arun Kumar Sen, a pioneer in the establishment of Suri Vidyasagar College in the early stages and an individual known for his exceptional organisational and administrative skills. Suri Vidyasagar College owes much of its present prominence to Professor Sen without whose guidance it could not have earned its present preeminent status among institutions of higher education in this part of West Bengal.

The Context: Professor Arun Kumar Sen played an important role in establishing the position of this college in its early days, utilising his remarkable organisational and administrative skills. After his untimely demise on 10th December 1963 while still serving as principal the Arun Sen Memorial Fund was created by some NCC officers and students to honour his memory. Professor Sen was an avid sports lover and initially a cricket tournament was held annually in his commemoration. Subsequently the Arun Sen Memorial Fund was established in 1982. The primary objective was to recognise outstanding students every year. Initially a small amount was collected from the students during admission and the funds were deposited in the employees credit cooperative society of the college. Through the interest accrued on this fund certain awards were given to deserving students based on their final University examination results. The first award ceremony was held on 22nd January 1983. Over time various individuals including professors of this college, their families, other institutions and wellwishers have sponsored various prizes in the memory of their loved ones. Currently Arun Sen Memorial Fund, that has become a Foundation in 2008, is offering about 79 prizes in diverse disciplines acknowledging excellence in various fields.

The Practice - After the demise of Professor Arun Kumar Sen some of his office colleagues and friends decided to organise a Cricket tournament in his memory. This became an annual feature of the college activities for several years to come. Thereafter the Arun Sen Memorial Fund was established in 1982 to recognise outstanding students every year. The first award ceremony was held in 1983 to commemorate outstanding students based on their final University examination results and other distinctions of success in respective fields. Slowly the number of prizes have increased to 79 in order to acknowledge excellence in various fields. The program is generally held on a single day and is usually preceded by a short cultural program. Traditionally dignitaries are

invited to grace the stage and talk about the life and works of Professor Sen or their impressions thereof. Thereafter students are called on stage to collect the prizes in the form of medals, mementos or book prizes one by one. The name of the donor, the name of the recipient and the category of the prize are announced from the stage. Prizes range from various academic distinctions to on-field sports performances and even success in NCC and NSS works. Even other aspects of academic life such as regularity of attendance or cultural consciousness are awarded through this program. Gradually this program has become a red letter day in the academic calendar of this college and is looked forward to by all teachers and students alike. Students gather in large numbers to celebrate the success of their peers and also to find enthusiasm for their own future performance.

Evidence of success: As this program became a red letter day in the academic calendar of this college and started being looked forward to by all teachers and students alike, it gathered unprecedented popularity among all stakeholders. Students gathered in large numbers to celebrate the success of their peers and also to find enthusiasm for their own future performance. It is noteworthy that many former recipients have achieved tremendous prominence and are today well-established in their respective fields. Thus it may be said that this program has encouraged excellence through generations of students. A perusal of the prize-winners' list side by side with the important alumni list will show how this program has identified and fostered significant talent from a nascent stage.
